FOR OFFICIAL USE ONLY

I, the applicant/owner, certify that this application is being made with the full knowledge and consent of all owners of the property in question. I attest that the information provided on this and supplemental application forms and materials is true and accurate. I also agree to provide access and right of entry to City of Blaine employees, representatives or agents for the sole purpose of application review and any required later inspections. This right of entry shall expire when the City (through the Director or designee) concludes the application has complied with all applicable laws and regulations. Access and right of entry to the applicant's property shall be requested and shall occur only during regular business hours.

Flood Hazard Development Permit Application

FOR OFFICE USE ONLY	
Application #	
_____	STAMP IN DATE

Project Name: _____

Contact Person: _____ Email: _____ Phone: _____

Address or location related to closest street intersection: _____

General description of the proposed development and why it is being proposed: _____

Certification: I understand that, as the Applicant it is my responsibility to obtain the required federal, state, and local permits or letters stating that a permit is not required, and that the final certification of use or certificate of occupancy will be issued only if the applicant provides copies of said documents. The floodplain permit is not valid if those other permits and approvals are not obtained prior to any ground disturbing work or structural improvements.

Applicant's signature: _____ Date: _____

Property owner's signature: _____ Date: _____

See following page for required submittals

Required Submittals

For minor repair of existing facilities consult with the Floodplain Administrator before completing this application.

For all applications except minor repair of existing facilities provide documents as described below.

Three site plans, drawn to scale, showing:

1. The nature, location, dimensions, and elevations of the property in question;
 2. Names and location of all water bodies within 300 feet of the site;
 3. The elevations of the 10-, 50-, 100-, and 500-year floods, where the data are available;
 4. The boundaries of the regulatory floodplain, SFHA, floodway, riparian habitat zone, and channel migration area;
 5. The proposed drainage system including but not limited to storm sewers, overland flow paths, detention facilities and roads;
 6. Existing and proposed structures, fill, pavement and other impervious surfaces, and sites for storage of materials;
 7. All wetlands;
 8. Designated fish and wildlife habitat conservation areas, and habitat areas identified for conservation or protection under state or federal or local laws or regulations (e.g.: Endangered Species Act, Magnuson-Stevens Fishery Conservation and Management Act, Growth Management Act, Shorelines Management Act, Priority Habitat and Species List);
 9. Existing native vegetation and proposed revegetation.
- A. If the proposed project involves grading, excavation, or filling, the site plan shall include proposed post-development terrain at one foot contour intervals.
- B. If the proposed project includes a new structure, substantial improvement, or repairs to a substantially damaged structure that will be elevated, the application shall include the flood protection elevation for the building site and the proposed elevations of the following:
1. The top of bottom floor (including basement, crawlspace, or enclosure floor);
 2. The top of the next higher floor;
 3. The bottom of the lowest horizontal structural member (in V Zones only);
 4. The top of the slab of an attached garage;
 5. The lowest elevation of machinery or equipment servicing the structure;
 6. The lowest adjacent (finished) grade next to structure;
 7. The highest adjacent (finished) grade next to structure;
 8. The lowest adjacent grade at the lowest elevation of a deck or stairs, including structural support.
- C. If the proposed project includes a new structure, substantial improvement, or repairs to a substantially damaged nonresidential structure that will be dry floodproofed, the application shall include the FPE for the building site and the elevation in relation to the datum of the effective FIRM to which the structure will be dry floodproofed and a certification by a registered professional engineer or licensed architect that the dry floodproofing methods meet the floodproofing criteria in BMC 17.86.160.
- D. The application shall include a description of the extent to which a stream or other water body, including its shoreline, will be altered or relocated as a result of the proposed development.
