Council,

I wanted to let your know that after a lot of puzzling over the best thing to do in regard to the water shut off. We ultimately decided to place 6 sani cans in the area all with hand sanitizer. Public Works has also determined that they have a way to reduce the area impacted by the shut off. The six sani cans should give people easy access to a facility, and with the limited area, the pressure on those sani cans will be light.

A very big thank you should go out to Sanitary Service and to Ravyn for working some magic. The sani cans are being **donated** by Sanitary Service.

Michael Jones, MPA  
City Manager
